ACADEMIC QUALIFICATIONS

Degree/Exam
B.Tech.

College/University
IIT Kharagpur

Year
2019-23

CGPA/%
8.72

- **Languages/Libraries:** MYSQL/PL-SQL | Python | DAX | C
- **Applications/Utilities:** Power BI | Power Automate | Informatica | MS Office | PySpark | Git | Figma | Jira | Bloomberg

WORK EXPERIENCE

Axis Bank | Business Intelligence Unit | Analytics Engineer

Jul'23-Feb'25

- **SA NTB Dashboard**
 - Enhanced visibility of **performance trends** across various levels of the bank, improved their planning to reach periodic targets
 - Replaced **15+ reports** by personalising views and formulated **DAX** measures for computing **30+** quality and financial metrics
 - **4000+** unique monthly users with **100%** usage empowering strategy, product & sales team in terms of account level analytics
- **Revamp of SA Balance Cube**
 - Initiated revamping process for implementation of the **semantic model** in power BI thus preparing data for optimised reporting
 - Designing of **dataframe sheet** for clear communication of logic with DE team to prescribe definitions to handle edge cases
 - Reduced reconciliation efforts by **40%** by developing automated data quality checks for monitoring accuracy in everyday run
- **SA Attrition Project**
 - Developed **PL/SQL** code for executing BRD logic & applying DQ checks for producing overall NOA position for savings in bank
 - Transformed data and built **semantic model** using imported dim and fact tables and wrote DAX queries for creating measures
 - Saved a manual effort of **10h/month** by developing personalised view for providing a valid source of reference for F&A team
- **Myrtle Migration**
 - Performed data validation checks & conducted meetups with Myrtle team to ensure both teams are in sync with logical clarity
 - Reduced manual workload by **12.5%** monthly by developing an ETL pipeline using informatica for automating daily data refresh
 - Followed agile method of implementation utilising **jira** for bringing data and designs for myrtle into existing saving dashboards
- **Automation of Locker & T+7 Product Dashboard**
 - Developed a self-serve portal for resolution of **7 ad hoc/month** using **ELK** stack as one stop shop serving regulatory reporting
 - Improved the execution time and storage efficiency by **70%** by optimizing SQL script implementation using **views** and **CTE**
 - Curtailed manual intervention by **90%** by triggering the refresh using Power Automate and informatica by setting up mail triggers

INTERNSHIPS

releaseMyAd | Xpert Division | Product Analyst Intern - CEO's Office [Link](#)

May'22 - Jul'22

- Received affirmation for payment from **88 out of 250** Indian D2C startups for newly developing customer acquisition solution
- Brainstormed on the new product idea with CEO using a **brand positioning framework** for understanding the product better
- Designed **scoring metric** & **8** userflow wireframes for targeting customers for Xpert Ads, used by CEO in stakeholders discussions

TATA Steel Limited | Product Sale Analyst Intern | Remote [Link](#)

Jul'21 - Aug'21

- Extracted actionable insights from the sales data of products sold during the founders' week which helped in the decision making
- Analysed **purchasing patterns** of the customers, aided business team in improving the marketing strategies for sales promotions
- Created **key metrics** to identify potential product combinations which assisted in designing product recommendation for users

PROJECTS and COMPETITIONS

Smart India Hackathon 2022 | Software Edition | National Winner [Link](#)

Mar'22-Aug'22

Guide: Prof. Pawan Goyal, Department of Computer Science and Engineering, IIT Kharagpur

- Created **Sanskrit Speech Recognition** Google plugin for empowering researchers to extract knowledge of ancient manuscripts
- Conducted **survey** among Sanskrit researchers to understand viewpoint on existing challenges in Sanskrit literature accessibility
- Achieved **WER of 17.9** and deployed pre-trained **Wav2Vec2** model after fine-tuning on **78hr** of data from **27** different speakers

Case Study General Championship'23 | IIT Kharagpur | NoBroker | Silver [Link](#)

Mar'23

- Captained a **team of 20**, secured **2nd** position out of **22** halls in IIT KGP representing RP hall, awarded a cash price of **15k**
- Devised **customer retention strategies** by performing market & competitive analysis to deduce position from Buyer's POV
- Proposed new revenue stream with **6cr** PA potential increase of profits by enhancing the **brand visibility** in low rental market

Order Forecasting for Food Delivery Service | IBM | Smart Internz [Link](#)

Dec'21

- Predicted number of orders for **51** dishes present with food delivery service for **next 10** weeks by utilizing data of past **145** weeks
- Preprocessed data using **one hot encoding** technique and visualized using heat maps for finding the correlation between variables
- Deployed decision tree regression model with min **RMSE of 62.79** & developed web application using **flask** web framework

ACHIEVEMENTS & EXTRA-CURRICULAR ACTIVITIES

- Spearheaded **team of 26** RP Hall, grabbed **Gold** in choreography event of General Championship IIT KGP in 2022-23 session
- Secured **1st** in group vocals during NCC Annual Training camp'19 and successfully completed 2 years as an active member
- **Top performer** among 467 participants in the 11th cohort of consulting experience project organized by QUOLLAB
- Ranked among **top 10%** of all freshers at IIT Kgp in 2020 and secured a departmental change after completion of 1st year
