SUMMARY

Analytics professional with 2+ years of experience in data modeling, experimentation, cohort and funnel analytics. With strong foundations in statistics, demonstrates the ability to break down ambiguous problems, derive insights from large datasets, and influence growth through data-driven decisions. Skilled in SQL, Python, Power BI, statistical analysis, automation and building scalable self-serve analytics for 4000+ users.

PROFESSIONAL EXPERIENCE

Axis Bank | Business Intelligence Unit | Senior Business Analyst

July 2023 – Present

Retail Liability - Deposits

Mumbai

- Built **peer benchmarking model** to set FY27 targets of **1.3M** new-to-TD customers across **6K+** branches; drove leadership alignment, accelerating **acquisition growth** from **10%** to **37%** MoM last quarter, strengthening deposit inflow
- Identified system misuse in NTB lead creation via **behavioral analysis**, uncovering **2%** misattributed credits last quarter; enabled CRM policy changes to enforce proper lead capture and ensure accurate performance attribution
- Identified an **annual opportunity** of **60M** gain via interest waiver policy shift; uncovered & steered leadership to rectify critical penalty logic flaws that permanently plugged an **18%** annual interest drain, fortifying net margins
- Uncovered channel inefficiency in FD-based credit cards by identifying only **12%** of inflows are driven by Cards team vs peers, exposing missed TD cross-sell opportunity; influenced product head's annual planning for targeted growth strategy
- Boosted deposit **retention** from **55%** to **80%** by enabling data-driven interventions through a maturity-retention dashboard, providing visibility into attrition risk and influencing quarterly business actions
- Transformed fragmented reporting into **persona-based** data products, replacing **15+** legacy reports; scaled to **4000+** users and drove **25%** increase in self-serve **adoption**, establishing a single source of truth for TD decisions
- Strengthened NTB **funnel controls** by building KPI pipeline and T+7 due diligence dashboard; improved compliance from **77%** to **87%**, enhancing TAT adherence and reducing regulatory risk
- **Operationalized** Products Per Customer framework by aligning **10+** teams across **25+** discussions, implemented **30+** strategy rules and led **UAT**, enabling cross-sell strategy and high-value customer identification
- Replaced manual query handling with **RLS-enabled query resolution** portals using **ELK & Power BI**; automated **7+** monthly ad-hoc requests for Ops/Product teams and reduced turnaround time by **80%**.
- Eliminated manual refreshes via **Power Automate** mail triggers, cutting effort by **90%** and ensuring timely reporting

TECHNICAL SKILLS

Languages: Python, PL/SQL, HTML/CSS, DAX

Tools: PySpark, SQL, Jenkins, Bitbucket, Power BI, Draw.io, MS Office, Informatica, ELK, Jira, Hive, N8N, Docker Desktop

Analytics Practices: Univariate & Bivariate Analysis, RCA, Cohort & Funnel Analysis, Data Visualization

People Skills: Data Storytelling, Cross-Functional Collaboration, Problem Solving, Prioritization, Stakeholder Management

EDUCATION

Indian Institute of Technology Kharagpur

Kharagpur, WB

B.Tech. in Mechanical Engineering | Micro in Entrepreneurship | CGPA: 8.74/10

August 2019 – May 2023

PROJECTS

Stock Analysis | Snowflake + IICS + Power BI | Link

Sep 2025

- Built **centralized data warehouse**, analyzed stock trading data across companies for trend & sector wise performance
- Developed **IICS** pipelines for **Snowflake** ingestion which could reduce manual data handling by **70%** & improve reliability
- Designed **semantic model** & dashboard on Power BI & enabled price forecasting analysis to support data-driven decisions

Automated Receipt Pipeline | N8N & Telegram | Link

Nov 2025

- Designed **OCR** for digitizing foreman's shift report of the mine for automating data entry into a structured format
- Developed an **N8N** pipeline with **Telegram** acting as channel for inputs and monitoring data processing for ease of use

ACHIEVEMENTS & EXTRA-CURRICULAR ACTIVITIES

- Captained a team of 20 for NoBroker-Interhall case study competition, securing **2nd position out of 22** halls in IIT KGP
- Spearheaded **team of 26**, won **Gold** in choreography event of General Championship IIT KGP in the 2022-23 session
- Ranked among **top 10%** of all freshers at IIT KGP in 2020 and secured a departmental change after completion of 1st year
